**Company Profile: Offering customers the best possible benefits!**

SAG-Akademie GmbH für berufliche Weiterbildung is a private educational institution specializing in wastewater technology.

Our in-person seminars take place throughout Germany at seminar locations in Darmstadt, Berlin, Lünen, Kiel, Lauingen (Danube), Leipzig, Lindau (on Lake Constance), Nienburg (Saale), as well as in Vienna.

The seminars combine theoretical knowledge with practical trainings and are offered in various specialist areas: sewer cleaning, sewer inspection, leak testing, sewer refurbishment, Health & Safety, separation technology, sewer construction, property drainage, and business optimization.

With SAG-ToGo360°, the SAG Academy offers a unique ONLINE learning platform with a broad scope of distance learning courses.

We have recently added the RKI (pipe, sewer, and industrial services) master craftsman course, a preparatory course for the examination at the Darmstadt Chamber of Industry and Commerce.

In-house training at our customers' premises is a matter of course for us.

**Scope of Service: Workshops and Special Tutorials**
