### Company profile:

PSI Products GmbH is one of the leading specialized suppliers of high-quality accessories in pipeline/ civil engineering and plant construction as well as the entire utility industry.

The product range extends from seals for wall penetrations, through, corrosion and mechanical pipe protection products as well as plastic spacers and steel special constructions, flange gaskets, flange insulations and accessories for pigging technology, as well as other accessory materials. Moreover, we are a competent contact for site consulting and special solutions. PSI products are exported to more than 50 countries all over the world. Our customers are municipalities, pipeline construction companies, water and wastewater companies, chemical and petrochemical industry as well as the oil&gas and energy industry.

**Portfolio:** We from PSI are likewise developer manufacturer and distributor. Added values for our customers we generate through targeted combinations of own products, together with standard components. So our customers benefit not only from product characteristics, but also from the strength of the common network.
