Company profile:

Hoses and connection systems for all industrial applications

The requirement to transport or extract solid or gaseous substances safely and flexibly arises for many companies in the industrial environment. Our answer to these specific requirements are precisely fitting hoses and connection systems!

In addition to standard and special hoses, we also offer customized solutions as well as hoses and hose systems with integrated life cycle tracking functions ([AMPIUS®](#)) and expertise on the topic of the [circular economy](#) as part of our engineering services.

Manufacturing- / delivery programme: We offer suitable hoses, connection systems and connection technology for a wide range of applications.

Hoses		
Standard Hoses	Special Hoses	Development Solutions
Exhaust Gas Hoses, Abrasion-Resistant Hoses, Air-Conditioning Hoses, Food Hoses and Pharmaceutical Hoses, Pneumatic Hoses, Temperature Resistant Hoses up to +1,100 °C and a host of other delights.	Individual special hose constructions.	Masterflex Group regularly develops individual hose systems for customers from a wide range of industries. If the standard is not sufficient, creative, customized solutions are developed, perfectly tailored to your needs.

Connectors			
Clamps	Plastic Connectors	Metal Connectors	Pipe Bends and Pipes
Hose Clamp, Quick-Fix Clamp.	Variety of plastic hose connectors.	Cone flanges, spigots, joint clamps, clamping shells, hose connectors and a hose reducer.	Pipe bends and pipes with PU lining.
