### **Company profile:**

Take an active part in building your own future! The Dortmund Guild of Master Crafts offers various workshops and seminars, either on a full-time basis or as a part-time training parallel to your work. If you are looking for a high-level professional education please visit our academies Ardeystraße and Hansemann.

Graduates from our academies will have acquired a sound professional knowledge and will have all the skills to successfully meet the requirements of the labour market – perhaps by starting a business of their own.

### **Services of the plastics technology teaching institution:**

For nearly 50 years the welding academy of the Dortmund Guild of Master Crafts has offered a comprehensive range of professional and vocational trainings for the processing of plastics materials, with special focus on the requirements of tradesmen and the industry.

State-of-the-art shop floors, highly qualified and motivated teachers, a dense network of experts combined with comprehensive advice and guidance complement our service offer.

### **A selection from our offering in plastics technology:**

- Basic training and qualification renewal certificates for welding of pipes and piping parts according to the German Welding Association Standard DVGW GW 330
- Basic training and qualification renewal certificates for welding of pipes and piping parts with particular attention to the different test groups according to DVS 2212
- Welding of polyethylene pipes and piping parts for water drainage, for geothermic processes and biogas technology
- Evaluation of welding imperfections as per DVS 2212
- Qualification for underground PE pipe installation and fittings for gas and water supply
- Support for supervising PE-welding professionals
- Special training courses

### **Other services provided:**

- Technical advice for particular developments and specific solutions to problems
- Individual in-house training courses
- Examinations „on-the-spot”.

For further information please refer to our seminar programme. If you have any questions, please do not hesitate to contact us. We would be happy to present our services to you in a personal meeting.
