Company profile:

For the past three decades until today the focus of this medium-sized company has been on the construction and assembly of piping systems, plant and plant equipment, containers, and special profiles.

We are familiar with implementing either partial works or the complete project – as required for example by engineering practices, contractors or manufacturers. We are able to work as part of a joint venture or to take full responsibility for in-time delivery of complex processes.

Our customers come from across the paper manufacturing industry, the chemical industry and the environmental sector (sewage plants), as well as power plants, communal authorities and associations.

Manufacturing- / delivery programme:

Experts in pipe installations

- Installation of piping systems
- Plant construction
- Plant equipment manufacturing
- Stainless steel work.
