Company profile

Rohrhandel - Brunzel GmbH is one of the largest privately owned steel pipe wholesalers in Germany and primarily supply trade customers. Located in the heart of Düsseldorf's harbour district, this family-owned company has been serving customers for more than 50 years.

We operate warehouses with an area of approx. 6,000 m², plus an additional 5,000 m² of outdoor storage space. And thanks to our own private sidings, we are also able to deliver or collect goods using the rail network.

A modern IT system allows to keep close track of bespoke lengths, and can immediately identify the supplier and the relevant certificates (test certificate WZ 2.2/inspection certificate APZ 3.1.B).

The in-stock range

Our ever-growing in-stock range currently comprises more than 10,000 tonnes, offering a variety that meets even the highest customer expectations. Standard and thick-walled seamless steel pipes with external diameters of 10,2 to 660 mm in the following steel grades:

- S355J2H/EN 10210-1
- E355 + AR/EN 10297
- St 52.0, St 52.4/DIN 1629/1630
- P235TR2/EN 10216-1
- Seamless threaded pipes complying with DIN 2440/2441 or EN 10255 in black

For orders involving special surface finishing requirements, we can call on the services of a number of local processing companies – even at short notice. This enables us to handle your orders quickly and easily.

Our large saw capacities ensure that we can fulfil orders for specific lengths quickly and reliably. Four modern bandsaws are always available for external diameters of up to 660 mm, allowing us to supply even the shortest specific lengths – quickly and in large quantities.
