### Company profile:

The company foxiflex was founded in 2005 and is today one of the most experienced companies producing highly technical hoses. On 5 of the most up-to-date production lines, foxiflex produce spiral hoses from dia 10 mm up to dia 1.000 mm.

The company's success is based not only in the manufacture of standard products, but also in the production of special hoses in small lengths (sometimes as short as 3 meters).

With engineering competence and practical experience the foxiflex-team stands also for superior engineering services. A warehouse stock of over 3.000 hoses of different types and sizes, enables short delivery times.

### Manufacturing- / delivery programme:

Exhaust Gas Hoses

Air-extraction Hoses / Dust Suction Hoses (Dust extraction & filter technology)

Abrasion resistant Hoses

Chemical Hoses

Hoses capable of electro-conductivity and electrostatic discharge (ATEX, TRBS 2153)

Conveying Hoses

Granulate Conveying Hoses / Dispensing Hoses

Grass and Foliage Suction Hose (Street-Cleaning Machines, Utility Vehicle Technology)

Hot Air Hoses / High Temperature Hoses up to +1,100°C approx.

Industrial Cleaning Hoses / Waste Disposal Industry

Industrial Vacuum Cleaning Hoses

Agricultural Hoses

Hoses for the Food Industry

Microbe and Hydrolysis resistant Hoses

Oil Mist Hose / Oil Extractor Hose

Protective Hoses

Welding fume Extraction Hoses

Flame resistant Hoses

Vacuum Hoses

Connecting Components
