Company Profile:

HENZE is a family owned enterprise, which is engaged in plastic processing since its establishment in 1952. As early as 1960 it was supplying the market with Polyethylen-Wrapped Pipes. Since then it is one of Germany's and Europe's leading manufacturers and processors of Wrapped Plastic Pipe of PE and PP up to diameter 3.6 m.

Experience, innovative planning and production add up to the decisive competitive edge in quality and service for the customer.

Manufacturing- / Delivery Programme: Welded System Solutions of PE and PP

Water technology
