Company profile:

G+H Isolierung is one of the leading service providers for heat and cold insulation, preventative fire and noise protection, with special focus on power plants, chemical industry and plant equipment manufacturing. The company with main seat at Ludwigshafen offers a one-stop service from professional consulting to planning, delivery and final assembly.

Their nationwide network of 34 locations across Germany is complemented by a number of subsidiaries in Eastern Europe and the Benelux countries.

G+H is part of the VINCI Group, the world's largest construction company, and thus part of VINCI Energies Deutschland. G+H have a long tradition in their field of operation: In 1976, G+H Isolierung was divested off Grünzweig + Hartmann & Glasfaser AG, which itself had been established back in 1878. Thanks to their centralized research and development department and due to cooperation with standardization committees and work groups G+H ensures that all innovations are directly implemented in practical projects.
