Company profile:

Expert advice is especially important in all areas of fire safety. "Tyco Fire and Building Products" helps you to find the safest and most efficient solution for every application.

"Tyco Fire and Building Products" offers a comprehensive range of quality products for virtually any application in the field of building services and industrial use.

All products are available on stock or can be supplied at very short notice. Thanks to the high standard of logistics operations the company can deliver their products to practically any location in the world.

"Tyco Fire and Building Products" will provide you with technical support, training courses and workshops for your staff who install Tyco products in their everyday work.

Manufacturing- / delivery programme:

- Fire Protection Products**
- Mechanical Grooved Products**
- Metal Framing / Support Products**

Customer-specific products and assemblies of various products are available at very short notice. Due to the support of our in-house technical department we can assist you in planning your installations, in achieving material acceptance and in choosing the right product for your specific application.
