

Company Info:

For over 20 years in the industry, the company RIEZLER Inspektionssysteme offers a variety of color television camera systems for pipe and sewer inspection to push and drive.

Our camera systems are used for the areas: private connection, sanitation, drainage, renovation, building, but also for gas and water lines, storm water basins, fountains, pools, tanks, cavities, air ducts, manholes and cable ducts, etc.

Also special solutions we develop and produce for you, by example for specific requirements, in our own house.

Our rugged equipment is designed for long life, easy to use and delivers outstanding, detailed pictures. You get a high-quality quality product from our own development and manufacturing. The internal service workshop can help you in case of damage quickly and inexpensively.

The pricing policy is based on the motto: "best possible quality at a fair price."

This motto of the pricing policy is closely linked with our company policy: "Customer loyalty through trust, expert advice, best possible quality, fair prices and exemplary service."
