Company profile:

Franken Plastik (FP) is since over 50 years a leading manufacturer of signage and labelling systems.

Fourty employees are responsible for the production, sales and administration of indicator signs at this approx. 4 000 square metre site. FP head office offers a comprehensive service with the support of a competent sales force within Germany and diverse sales partners abroad.

Customers can engage in personal dialogue with direct contact partners at FP, and this dialogue provides the basis for FP's continuing success.

Manufacturing- / delivery programme: Signage and labelling systems

Indicator signs for municipalities and companies

Standard Programme: Hydrant, Water, Waste Water, Gas, District Heating, Cable, Pipeline
Plastic indicator signs clip systems, Metal plates, Area signs programm, Fastening.

Industrial and Plant Marking System

Starting with a simple sticker or bespoke signage in accordance with the KKS system for power stations with integrated RFID technology, we stay true to our motto of "Individuality is our standard".

Indicator Signs for Road Marking

Common to all FP stationing signs, marker plates and inserts are their tried and tested attributes: UV resistance and resistance to impacts, shocks and scratches.

Posts for Cathodic Corrosion Protection

Marker posts and measuring posts are available in metal or in plastic. The portfolio is completed by a complete range of accessories.

Locating and Detecting Technology

Detectable Tapes, Warning Tapes, Barrier Tapes.
